

## **Definitions**

**Glider Kit Vehicle.** Every large truck manufactured from a kit manufactured by a manufacturer of large trucks which consists of a frame, cab complete with wiring, instruments, fenders and hood and front axles and wheels. The "glider kit" is made into a complete assembly by the addition of the engine, transmission, rear axles, wheels and tires.

**Idaho Classic.** Any motor vehicle or motorcycle which is at least thirty (30) years old that does not qualify as an "Idaho Old Timer" and that is maintained to its original likeness using original-type parts and materials, without major modifications. Any motor vehicle which is altered from its original design is not an "Idaho Classic" as herein defined. Any motor vehicle or motorcycle which qualifies as an "Idaho Classic" shall be used for exhibits, parades, tours, club activities and such occasional use as is necessary for operation and maintenance of the vehicle, and shall not be used for business or commercial purposes or as customary and usual transportation.

**Idaho Old Timer.** Any motor vehicle manufactured prior to January 1, 1943, that is maintained to its original likeness using original-type parts and materials, without major modifications. Any motor vehicle which is altered from its original design is not an "Idaho Old Timer" as herein defined. Any motor vehicle which qualifies as an "Idaho Old Timer" shall be used for exhibits, parades, tours, club activities and such occasional use as is necessary for operation and maintenance of the vehicle, and shall not be used for business or commercial purposes or as customary and usual transportation.

**Rebuilt Salvage Vehicle.** Every vehicle that has been rebuilt or repaired using like make and model parts and visually appears as a vehicle that was originally constructed under a distinctive manufacturer. This includes a salvage vehicle which is damaged to the extent that a "rebuilt salvage" brand is required to be added to the title.

**Reconstructed Vehicles.** Vehicles which have been reconstructed by the use of a kit designed to be used to construct an exact replica of a vehicle which was previously constructed under a distinctive name, make, model or type by a generally recognized manufacturer of vehicles. A glider kit vehicle is not a reconstructed vehicle.

**Replica Vehicle.** A vehicle made to replicate any passenger car or truck previously manufactured, using metal, fiberglass or other composite materials. Replica vehicles must look like the original vehicle being replicated but may use a more modern drive train. At a minimum, replica vehicles shall meet the same federal motor vehicle safety and emission standards in effect for the year and type of vehicle being replicated.

**Specially Constructed Vehicle.** Every vehicle of a type required to be registered not originally constructed under a distinctive name, make, model or type by a generally recognized manufacturer of vehicles and not materially altered from its original construction and cannot be visually identified as a vehicle produced by a particular manufacturer. This includes:

- (i) A vehicle that has been structurally modified so that it does not have the same appearance as a similar vehicle from the same manufacturer; or
- (ii) A vehicle that has been constructed entirely from homemade parts and materials not obtained from other vehicles; or
- (iii) A vehicle that has been constructed by using major component parts from one (1) or more manufactured vehicles and cannot be identified as a specific make or model; or
- (iv) A vehicle constructed by the use of a custom kit that cannot be visually identified as a specific make or model. All specially constructed vehicles of a type required to be registered shall be

certified by the owner to meet all applicable federal motor vehicle safety standards in effect at the time construction is completed, and all requirements of chapter 9, title 49, Idaho Code.

**Street Rod.** Any pre-1949 vehicle which has had a significant drive train update from a more modern vehicle. Changes may include engine, transmission, rear axle, and other suspension components. The body will be, or resemble the same as the manufacturer's original issue after its first sale after manufacture. Any motor vehicle manufactured prior to the year 1949, or designed and manufactured to resemble such a vehicle and which has been certified as a street rod may be registered as a street rod under the provisions of this section. However, the provisions of this section shall not apply to any vehicle with a registered maximum gross weight over twenty-six thousand (26,000) pounds.

## Conditional Titles

### PURPOSE

This fact sheet provides basic information on the issuance of conditional titles.

### DEFINITION

Conditional title: A title issued for a vehicle ten or more years old when the applicant is unable to present ownership documentation sufficient to satisfy normal titling requirements. Conditional titles are issued with the

following brand: "ISSUED ON STATEMENT OF APPLICANT, BRAND EXP: MM/DD/YY."

### TITLING PROCEDURE

- Step One: Contact a county assessor's motor vehicle office or the Idaho Transportation Department (ITD). If

a county assessor or ITD motor vehicle employee determines that you do not have or are unable to obtain sufficient ownership documentation to apply for a regular title for a vehicle 10 years old or older, you may apply for a conditional title.

- Step Two: Obtain a VIN inspection. Have a county assessor's motor vehicle deputy or a law enforcement officer inspect your vehicle to determine the true vehicle identification number (VIN). If the VIN can't be found or shows signs it may have been altered, you will be instructed to contact a Motor Vehicle Investigator

(MVI). If the MVI is dissatisfied with the VIN because it appears to have been tampered with, you may be required to bond the vehicle to obtain title.

- Step Three: Obtain Motor Vehicle Records (MVR). Check for any record of a title in Idaho and any other state you believe may have a record of the title. If the vehicle was titled and registered in Idaho, the county

assessors motor vehicle office will be able to provide records for \$7.00 per record. If the vehicle came from

another state, obtain motor vehicle title and registration records from that state's DMV. Present verification of

this search to the county or ITD.

- Step Four: Attempt to contact owners of record. If you identify the prior titled owner, attempt to contact that

person to get the title signed off by the owner or obtain a power of attorney or a release of interest by certified

mail. The county may assist you in obtaining the most current address available. Prior Idaho owners who

have never titled the vehicle may be required to do so first. If you can demonstrate that you are unable to get

the required documents, and that all possible means have been employed to try to resolve the title problem,

contact the county or ITD again.

- Step Five: Present documentation to the county. Present your VIN inspection, MVRs, proof of mailings to owners (certified mail receipts and returned certified mail letter, etc.) and any other proof of ownership you

may have, such as old registrations, bills of sale, receipts, cancelled checks, etc. The county will evaluate all

documents which may indicate you are the owner. If your documentation is sufficient for a conditional title,

the county will give you a Conditional Title Statement of Facts (ITD-3405) to complete. By signing this form

you agree to hold ITD (including any county deputy serving as it's agent) harmless and defend them from all

legal expenses in the event of legal action that may result from the issuance of the title. On this form, you also state how you obtained the vehicle, that it is free and clear of any liens and encumbrances, why you cannot comply with normal title requirements, and what attempts have been made to resolve the concerns.

- Step Six: Apply for title. The county assessor motor vehicle office will prepare a title application for you to

sign. You may obtain a vehicle registration at that time. Standard registration fees will apply.

## FACT SHEET

Conditional Titles

01-15TW

### REQUIRED DOCUMENTS FOR A CONDITIONAL TITLE

1. ITD Conditional Title Statement of Facts (ITD-3405)
2. Any other available documents verifying ownership such as bills of sale or old registrations.
3. Motor vehicle registration and title records from the state in which the vehicle was last registered and titled.
4. Proof of attempts to contact previous owner(s), such as a returned certified mail letter and/or certified mail receipts demonstrating the mailing was sent to the most recent address of record.

5. Application for Certificate of Title.

If the vehicle is a mobile or manufactured home, you will also need to present documentation verifying current

property tax on the home has been paid.

#### FEES

- VIN inspection (\$ 5.00)
- VIN decal, if VIN was assigned by an MVI (\$18.00)
- Title fee (\$ 14.00)
- Applicable sales tax on purchase price
- Registration fees if applicable

#### BRAND EXPIRATION

The conditional title brand "ISSUED ON STATEMENT OF APPLICANT, BRAND EXP: MM/DD/YY," includes the expiration date, which is three years from the date the conditional title is issued. When the expiration date

arrives, you may surrender the title to have the brand removed if you are still an Idaho resident, and if there are

no pending actions or claims that place legal ownership of the vehicle in question. The title must be accompanied by an \$14.00 title fee at the time it is submitted to have the brand removed.

Branded titles may not be accepted in some states due to the title's brand or "clouded" status. If other states do

accept the branded title, they may impose special requirements such as the posting of a surety bond.

#### OTHER CIRCUMSTANCES

Some transactions may be more complicated, and will not fit the standard criteria described above. In these

cases, the county or ITD may refer the transaction to motor vehicle investigator. If a vehicle has been acquired

as an abandoned vehicle or at a lien sale, the applicant is required to comply with the existing laws concerning

those processes. Such vehicles are ineligible for a conditional title under these circumstances. If a vehicle has

been abandoned by tenants, it will be treated as an abandoned vehicle, and you should contact your local law

enforcement agency to see if they will have it removed. (See the abandoned vehicle brochure for additional

information.)

The equivalent cost of each plate will be charged to each plate holder who purchases the new plate. The design, color and numbering scheme shall also be subject to approval of the department. The existing plate design will be canceled and all plate holders, present and future shall purchase and display the new plate.

(5) An applicant for the special "Idaho Old Timer" plate shall execute an affidavit on a form provided by the department that the vehicle qualifies as an old timer and shall only be used for the purposes allowed.

The department shall have the authority to refuse to issue a plate and may demand the return of such plate if the applicant has failed to comply with the provisions of this section.

Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond, or any cash deposit, shall be returned at the end of three (3) years, or prior to that time if the vehicle is no longer registered in this state and the current valid certificate of ownership is surrendered to the department, unless the department has been notified of the pendency of an action to recover on the bond.

(c) As to a vehicle at least ten (10) model years old, an applicant who is a resident of the state of Idaho may file with the department, before its authorized representative, a verified statement of facts setting out in detail the manner in which the applicant came into possession of the vehicle, the establishment of ownership, and a summary of the applicant's attempts to contact any prior owners of the vehicle. Upon receipt by the department of the verified statement and all documentation relating to the applicant's possession of the vehicle, and completion of an inspection of the vehicle identification number by an authorized representative of the department, the applicant shall execute a document in the form provided by the department releasing it of any and all damages that may be suffered by the applicant, along with warranties that the applicant will pay any and all damages suffered by any person or entity as to the issuance of a title for that vehicle by the department. The department shall then issue a certificate of title to the applicant in a form set out by this section. The certificate of title shall include the statement, "ISSUED ON STATEMENT OF APPLICANT," in permanent letters upon its face. The title issued pursuant to this subsection shall be presumed to indicate legal ownership of the vehicle at the end of the three (3) year period from the date of issue of that title, provided the vehicle is still registered in the state of Idaho, and there are no actions or claims pending against the applicant which place legal ownership in question. The department and the state of Idaho shall be immune as to any damages suffered by any person or entity as a result of the issuance of a certificate of title as provided by this subsection.

(2) Every dealer desiring the privilege of issuing temporary registration permits for the operation of vehicles shall make application to the department. If the privilege is granted, the dealer will receive a series of permits, consecutively numbered by the department, secured by the dealer at a fee of nine

dollars (\$ 9.00) for each permit. A permit subsequently issued by a dealer to a purchaser shall be valid for a period not to exceed thirty (30) days.

The dealer shall issue temporary registration permits in numerical sequence, one (1) only for each vehicle sold to a bona fide purchaser. Each permit, and the attached stub, shall be completed in duplicate, in ink or by typewriter at the time of issuance. The expiration date on the original permit shall be filled in by rubber stamp or broad-tipped marking pen, and the print shall be at least three-fourths (3/4) inch high and one-eighth (1/8) inch wide. The original permit shall be displayed in the rear window of the vehicle for which it is issued, except when issued for a convertible, station wagon, motorcycle, or other vehicle for which this would not be practical. In these exceptional cases, the permit should be conspicuously displayed in a place where the number of the permit and the expiration date may be easily read and where protected from exposure to weather conditions which would render it illegible.

(3) The dealer shall keep a written record of every temporary registration permit issued. This record shall include the name and address of the person or firm to whom the permit is issued, a description of the vehicle for which it is issued, including year, make, model, identification number, and the date of issue. This record shall list all permits in numerical sequence and shall be open to inspection by any peace officer or designated employee of the department.

(4) The fees collected from dealers by the department under the provisions of this section shall be transmitted by the department to the state treasurer for deposit in the highway distribution account.

(5) Upon application for title and for registration of a vehicle for which temporary registration has been issued under this section, the county assessor shall collect and fees shall be deemed due from the date of issuance of the temporary registration permit rather than from the date of application for title or registration.

(6) The department or a county assessor may issue temporary vehicle registration permits in an emergency situation. The fee for a temporary registration shall be nine dollars (\$ 9.00) and shall be valid for a period of thirty (30) days. The temporary fees collected by the department shall be transmitted to the state treasurer for deposit in the highway distribution account. Temporary fees collected by an assessor shall be distributed as follows: five dollars (\$ 5.00) shall be deposited in the county current expense fund and four dollars (\$ 4.00) shall be transmitted to the department for deposit through the state treasurer in the highway distribution account.
